HRS Report for AHV Board Meeting 10/26/2026

Completed by Nancy Dotson

HRS has submitted a prevention grant proposal to support ongoing and expanded prevention services in our communities. We anticipate receiving notification of the funding decision by the end of this week.

Our Vinton County office is closed due to water damage from recent flooding, including damage to carpeting, walls, and baseboards. We have formally notified the landlord and requested immediate remediation. However, we continue to provide services as needed at other HRS locations or virtually to ensure continuity of care. Staff have been relocated while the facility remains unsuitable for operations.
