

## **317 Board August 25, 2025 Agency Updates**

### **Serenity Grove**

Update for Women for Recovery (Serenity Grove): We currently have 7 residents with the 8th arriving in early September from RWRP. The majority of our residents continue to come from treatment centers or the legal system. The average stay is close to 8 months and we continue to have a 100% success rate at finding employment for work-eligible residents. As Ohio University resumes, we will welcome two social work interns who will learn and work alongside our certified Peer Recovery Support Specialist, now starting her fourth year with us, and our COMCorps member who is returning for a second year of service with our organization. We remain grateful for the support provided by the 317 Board and all the agencies and organizations who provide a network of hope, resilience, and support.
