

## **Health Recovery Services**

### **March 23, 2026 Agency Update**

The report from HRS is that we are currently preparing the quarterly reports for DBH on SOR. We are also writing for a grant to foster "Fatherhood and Family Quality Communication through Didactic and Experiential Learning" This is the first time an RFP of this nature has been offered through the State and their newly formed Ohio Commission on Fatherhood through the Ohio Department of Children and Families. HRS is writing for this in Hocking County in order to continue and build on the existing family programming currently taking place that has been supported by the board through Systems of Care Funding which is limited.
