

## AGENCY UPDATE

June 22, 2026

ORH Certification: Currently certified through March 2028

Women for Recovery would like to share the following agency updates:

### CENSUS

We continue to have referrals primarily from treatment centers, SEORJ, and Marysville along with recommendations from local probation and parole officers. Our current census is 7 with our next resident arriving July 6<sup>th</sup>..

### FACILITY/ACTIVITIES

- Regular activities in our meeting space include acupuncture, qigong, trauma-sensitive yoga, strength & conditioning, and music therapy.
- We are working with Rural Action monthly as residents participate in a trail building/trail reconstruction project on a segment of the Buckeye Trail. This is a grant-funded project through Rural Action where the focus is women building camaraderie and learning new skills together. The next project is June 27<sup>th</sup>.
- We were the financial recipients of a donation from an Athens Ohio Roller Derby home match on Saturday, May 16<sup>th</sup> – we were selected as the recipient by one of the Derby team members. Four residents and three staff members attended the event.
- Current house projects: getting the gutters cleaned and staying caught up with lawnmowing.

Respectfully submitted

---

Betsy Anderson, Executive Director
