

TASC of Southeast Ohio

A Bridge Between Justice and Treatment

August 24, 2026

Dear 317 Board:

As a brief summary of some things happening at TASC of Southeast Ohio, we recently attended the inaugural Ohio TASC Association's Training Conference at Mohican State Park, featuring training on the History of TASC, trauma, art therapy, ethics, and ASAM refreshers. TASC attendees came from all over the State and it was a very productive conference.

TASC continued the strategic development of the core Mental Health program, establishing organizational frameworks and workforce plans to rapidly fill critical positions. We are presently advertising some of these positions.

We successfully hired new personnel for the Jail Initiative program, utilizing targeted funding from the Hocking County grant.

Thank you for your continued support.

Sincerely,

Stephen K. Thomas, CEO
